### **Ashtead Technology Announces a New Facility Dedicated to Continuous Emission Monitoring**

Leading instrument rental specialists Ashtead Technology announces the opening of a new mid-west base, dedicated to Continuous Emission Monitors (CEMs).

Ashtead Technology's new technical base will focus on a comprehensive rental fleet of emissions monitoring and ambient air instrumentation servicing customers nationwide. The new facility will be manned by a highly-skilled team of technicians, with more

than 20 years of combined experience working within the CEMs industry. In addition to rentals, our extensive offerings will include repair service and calibration as well as technical support and complete turn key solutions.

Bob Davis, Director of Utilities at Airgas, the largest distributor of gases in the US, who partnered with Ashtead Technology to provide EPA Protocol and other emission monitoring gases, added; "The new Ashtead Technology CEMs office is great news for the entire emissions monitoring industry. The demand for CEMs equipment continues to grow and the new office will provide the sector with all the latest monitoring instrumentation in one central location to make the rental process even easier and quicker."

Larry Fisher, Ashtead Technology's National Speciality Gas and CEMs Manager, explains; "Customers will now be able to enjoy the benefits of a higher level of QA/QC necessary for the latest emissions monitoring instrumentation. The purpose of this initiative is to create a National Center of Excellence for compliance emissions monitoring equipment."

“With the new Center of Excellence Ashtead Technology now has the ability to stage CEMs equipment at any one of our 11 locations across North America knowing that it meets the highest standard that this type instrumentation requires”

The office, located at 1474 Elmhurst Road, Elk Grove Village IL 60007 is set to be fully operational the beginning of August and can be contacted on 877-GAS-RENT (877-427-7368).
