

## ROV Deepwater DWS Basket

Our high-quality ROV baskets enable simplified robotic underwater operations

Our lightweight and high-load capacity ROV Deep Water Diamond Wire Saw Basket is ideal for transiting bulky diamond wire saws to and from the underwater worksite. Custom-designed to meet the exact requirements of your project, our custom and standard designs both come with single-lift capability.

The ROV Deep Water Diamond Wire Saw Basket features an ROV-friendly tri-plate (for subsea handshake to AVR winch) and HD barrel bolt latches with closed detents.

### Applications

Transport of diamond wire saws and tools

### Features

Symmetrical lifting from above and below

HD counterbalanced tailgate

Mudmat base keeps cargo 24in / 609mm off seabed

Male and female hydraulic stab assemblies

### In the box

Operations and maintenance manual

Certified slings

# ROV Deepwater DWS Basket

## Specifications

Material	Galvanised carbon steel
