

3" Nominal Bore System

Light weight, ideal for suction anchor operations

The 3" bore single port stab is designed for use with high flows at low or medium pressures. Being light weight, it is ideal for suction anchor operations. The male stab has an aluminum body and plastic nose. A pipe barb suits push-on 3" suction hose and clamps.

Applications

Suction anchor operations

Features

10bar / 145psi operating pressure in

either suction or pumping

Pressure balanced

Lightweight
